

Lab Session 1 (one hour)

PURPOSE:

To visit the Intelligent Vehicle Lab (N3 Block and B4 level).

To familiarize with vision hardware.

PROCEDURE:

This session will be guided by the Instructor.

ASSIGNMENT:

Write a short report (1 to 2 pages) describing the basic composition of a machine vision system.

1. This assignment counts for 10% in your final score of the Continual Assessment.
2. All assignments must be handed in within one week after the last hour of the lab session.
3. All assignments must be attached with a cover page like below:
